MERMENTAU RIVER HARBOR AND TERMINAL DISTRICT

NOTES TO FINANCIAL STATEMENTS
See Accountant's Compilation Report

Note 1. Summary of Significant Accounting Policies

The Mermentau River Harbor and Terminal District was created as a political subdivision of the State of Louisiana under the provisions of Louisiana Revised Statutes 34:3221-3229. The Harbor and Terminal District is responsible for the regulation of commerce and traffic within the harbor and terminal area, which consists of Ward 5 of Acadia Parish. Project waterways include the Mermentau River, Bayou Plaquemine Brule, and Bayou Nezpique. The Board of Commissioners of the Harbor and Terminal District is comprised of seven members who are appointed by various governing authorities within the harbor and terminal area. The District has no employees.

Basis of presentation:

The accompanying financial statements of the Mermentau River Harbor and Terminal District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the generally accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting entity:

GASB Codification Section 2100 established criteria for determining the governmental reporting entity. Because the District includes all funds, account groups, activities, et cetera, that are controlled by the District as an independent political subdivision of the State of Louisiana, the District is a separate governmental reporting entity. Because the District's board members are appointed by various governing authorities within the District and are solely responsible for designating management and for fiscal matters, which include (1) responsibility for funding deficits and operating deficiencies and (2) fiscal management for controlling the collection and disbursement of funds, and because of the scope of public service provided by the District, the District is considered an independent political subdivision. Certain units of local government over which the District exercises no oversight responsibility, such as the parish police jury, parish school board, other independently elected parish officials, and municipalities within the parish, are excluded from the accompanying financial statements. These units of government are considered separate reporting entities and issue financial statements separate from those of the Harbor and Terminal District.

NOTES TO FINANCIAL STATEMENTS
See Accountant's Compilation Report

Fund accounting:

The District uses three funds and two account groups to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid in financial management by segregating transactions relating to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. On the other hand, an account group is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net spendable available financial resources. The account groups are concerned only with the measurement of financial position and do not involve measurement of results of operations.

Governmental Funds

General fund:

The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt service fund:

The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

1992 Certificate of Indebtedness:

This fund is used to accumulate monies for payment of \$220,000 (original principal) of certificate of indebtedness due in various installments at an interest rate of 6.50%. The proceeds of this issue are to be used toward the construction of the port access road.

Capital projects fund:

The capital projects fund is used to account for the financial resources to be used for the acquisition or construction of major capital facilities.

Port Access Road Fund:

This fund is used to account for the collection and disbursements of funds for the construction of the port access road.

NOTES TO FINANCIAL STATEMENTS
See Accountant's Compilation Report

Account groups

Fixed assets are accounted for in the general fixed assets account group, rather than in the individual funds. Public domain or infrastructures are not capitalized. All fixed assets are valued at historical cost. No depreciation has been provided on fixed assets.

Long-term obligations are accounted for in the general long-term debt account group, not in the individual funds. The two account groups are not funds.

Basis of accounting:

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. Operating statements of a fund present increases and decreases in net current assets. The funds are reported on the modified accrual basis of accounting using the following practices in recording revenues and expenditures:

Revenues:

Ad valorem taxes and the related state revenue sharing (which is based on population and homesteads in the parish) are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The taxes are generally collected in December of the current year and January and February of the ensuing year.

All other revenues are recorded when they become measurable and available to the District.

Expenditures:

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

NOTES TO FINANCIAL STATEMENTS
See Accountant's Compilation Report

Budgets:

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The Secretary-Treasurer submits to the Board of Commissioners a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Due to the fact that expenditures do not exceed \$250,000, it is not necessary to have a public hearing.
3. The budget is then legally enacted through passage of an ordinance.
4. Budgets are adopted on a basis consistent with generally accepted accounting principles (GAAP).

All budget appropriations lapse at year-end. Actual expenditures may not legally exceed budgeted appropriations by more than five percent at the individual fund level. Budgets as shown in the report are as amended by the Board in open meeting.

Total column on the financial statements:

The total column on the financial statements is captioned "Memorandum Only" to indicate that it is presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

Note 2. Levied Taxes

Property taxes are levied each November 15 on the assessed value as of the prior January 1 for all real estate, merchandise, and movable property located in the parish. Assessed values are established by the Acadia Parish Assessor and the Louisiana Tax Commission at a percent of actual value, as specified by Louisiana law. An assessment of all property is required to be completed no less than every four years.

The District authorized and levied a general maintenance tax of 3.73 mills for the year ended December 31, 1998.

NOTES TO FINANCIAL STATEMENTS
See Accountant's Compilation Report

Note 3. Cash, Cash Equivalents, and Investments

For reporting purposes, cash and cash equivalents include cash and certificates of deposit with an original maturity within 90 days from the acquisition date. Investments include certificates of deposit with an original maturity greater than 90 days from the acquisition date. The District may invest in United States bonds, treasury notes, or certificates, or time certificates of deposit of state banks having their principal office in the State of Louisiana, or any other federally insured investment. The District may also invest in shares of any homestead and building and loan association in any amount not exceeding the federally insured amount. The deposits at December 31, 1998 were fully secured by FDIC insurance.
